As the first company in the UK to offer artificial grass with a dead grass infill and to be awarded a Gold Medal for a judged show garden from the prestigious RHS Chelsea Flower Show, we can quite safely say that we have the best artificial grass available on the market today.

We are London based, but Easigrass offer franchises across South Africa. We are transforming people's gardens, play areas and balconies via our partnership network, as well as giving a fresh, unique look to events and commercial premises.

Please take a look at our brochure and see how good our Easigrass looks and how it may work for you.

VAN DYCK

Built to handle the South African Climate

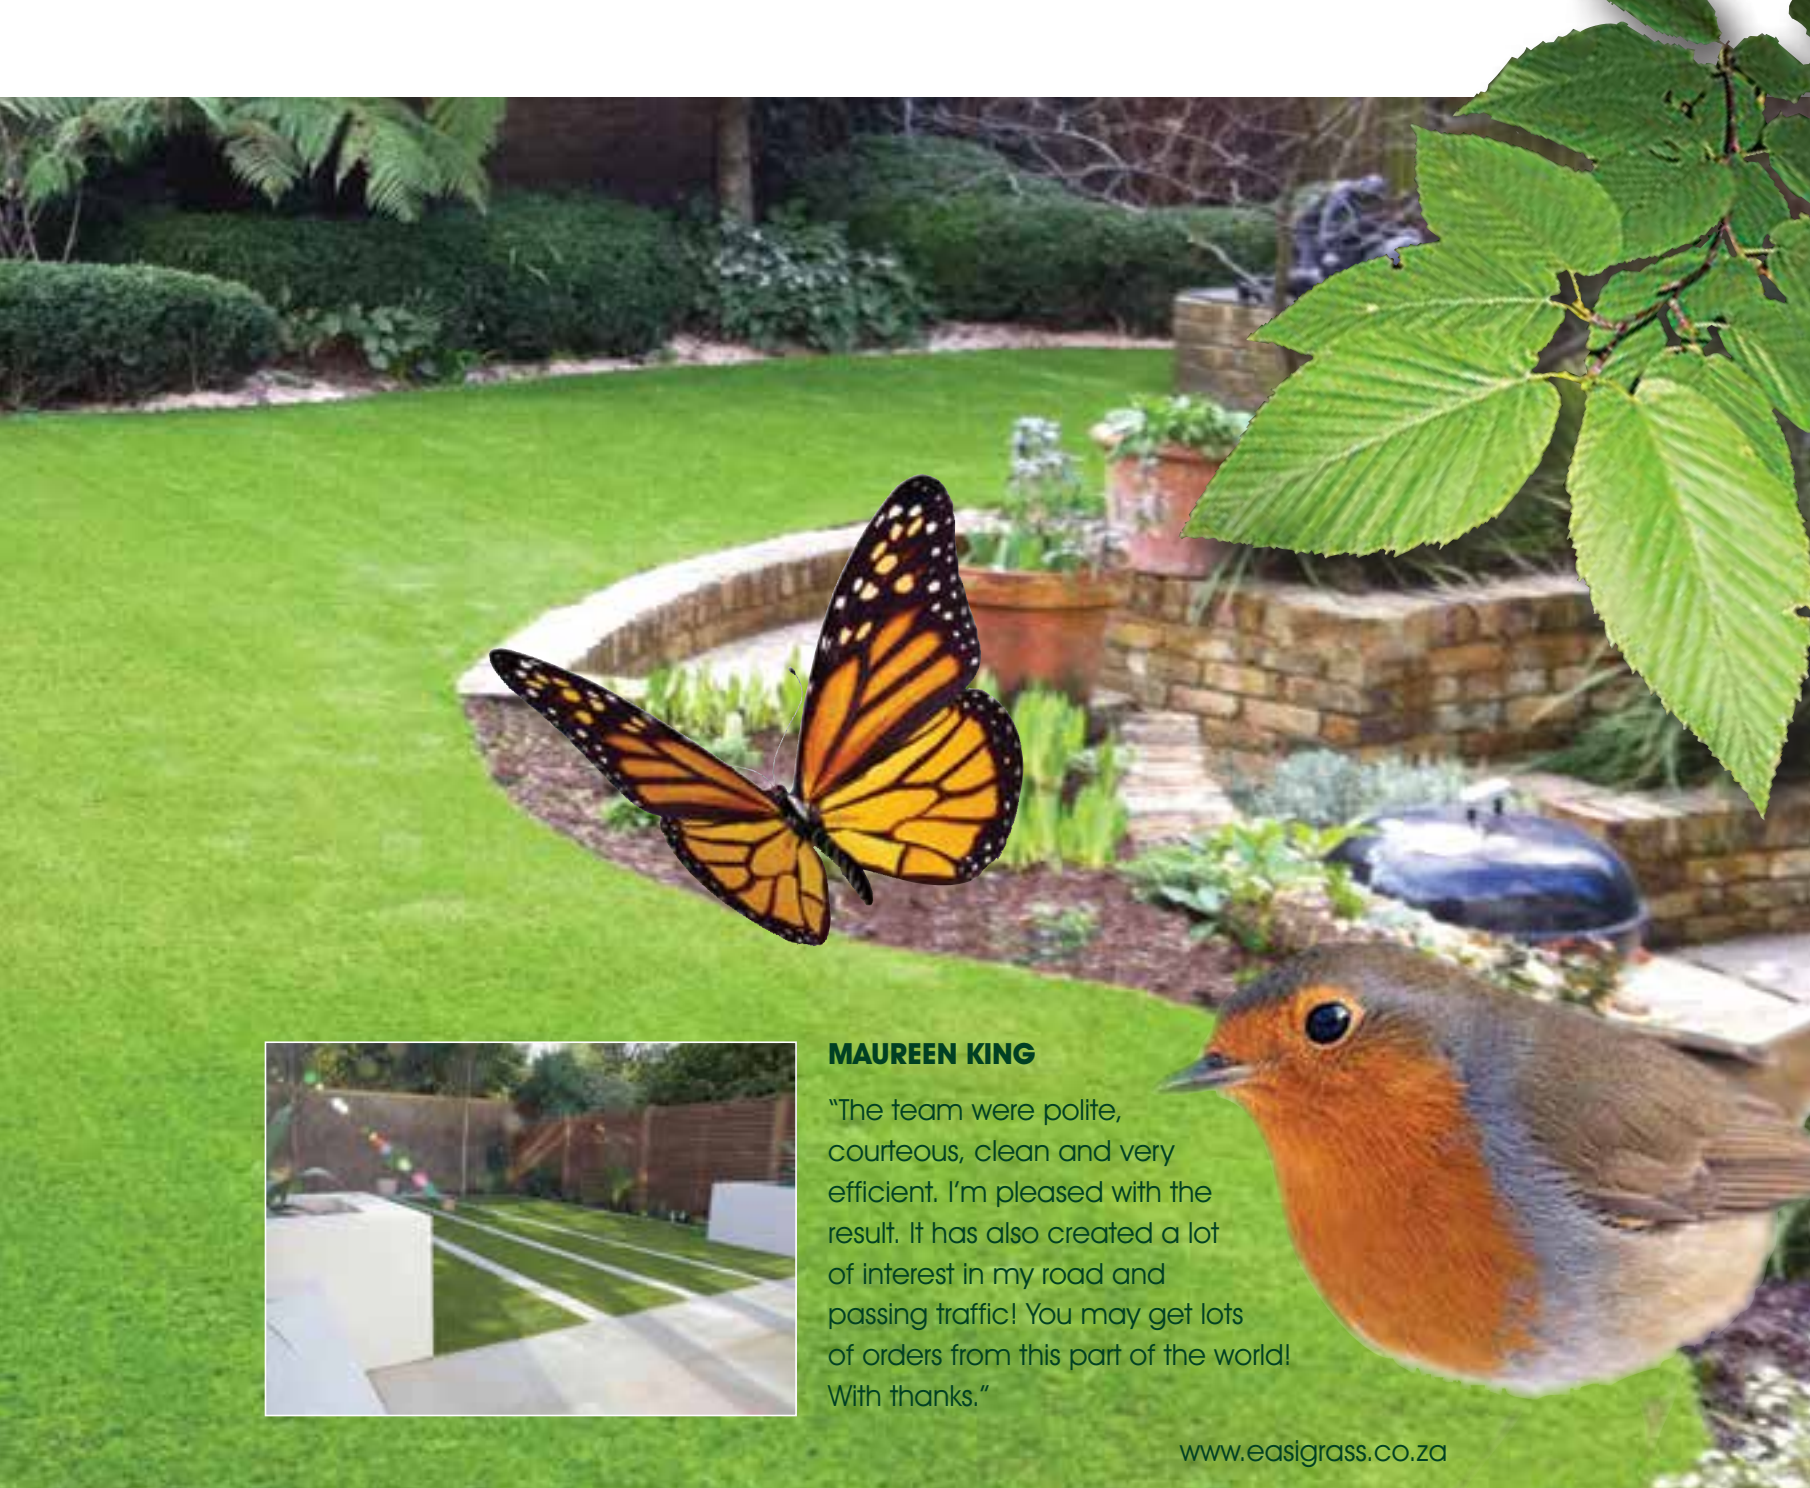

GARDENS

Transform your garden into a
REAL LIVING EXPERIENCE

An Easigrass garden is rapidly becoming a 'must have', as more and more people realise the advantages of switching to artificial grass. From the obvious reasons such as no mud or mess, to the labour saving elements such as no cutting, weeding or feeding, Easigrass is perfect for people who crave the Easi Life.

superorder

MAUREEN KING

"The team were polite, courteous, clean and very efficient. I'm pleased with the result. It has also created a lot of interest in my road and passing traffic! You may get lots of orders from this part of the world! With thanks."

www.easigrass.co.za

ANNA RUSSELL

PLAY GARDENS

Perfectly cushioned Easigrass™ ... loved by children encouraging more time out in the fresh air

SPORTS GARDENS

Football, Miniature Golf, Cricket,
all in your back garden

The wear and tear that real grass incurs has been one of the larger deciding factors in people switching to Easigrass™. We offer a full selection of different grasses for different sports, all of which are designed to take full impact and intense wear. It is the perfect solution to develop and bring on the sports personality in your home.

MRS EMMA STACE

"Thank you so much,
the lads have been amazing.
The work ethic is spot on!"

BALCONIES

The new soft outdoor experience

MR & MRS PLUMPTON

"Can I say that the new garden looks absolutely stunning. Your workmen were extremely diligent and professional. Thank you for a first class job."

ROOF TERRACES

Your new garden in the sky

A roof terrace can be transformed into your own private secret garden - the perfect place for you to enjoy your breakfast or supper. It could also become the new entertaining area for you to share with your friends, with a lovely fresh garden feel for you to look out upon.

FABIOLA ANTEZANA

"Very polite and professional crew. Thank you so much."

www.easigrass.co.za

Terraces

POOLSIDE

A new natural looking soft surround

In South Africa we love our outdoors and you can now give your pool area the ultimate make over. With Easigrass you can immediately transform the area around your pool, where it would be impractical to use real grass.

With young children always tempted to chase each other around the pool, and where a normal fall would be onto a hard surface we now have a softer landing option that will also give a total transformation to what may be a tiled or stone area.

JO WHELAN

"Very polite bunch of guys and a great service. Many thanks."

SCHOOLS
Easigrass™ at the forefront
for child friendly surfaces

Schools and nurseries have opted for our product range and service simply because it is safer and more realistic than any others in the market place. Our Easi-shockpad, which is placed under the Easigrass™, offers a 1.3m critical fall height to protect children should they fall.

With a play surface that reduces injury together with the most realistic looking artificial grass available it is proving to be the way forward for schools, nurseries and play areas at home.

THE LINK PRIMARY PRE-SCHOOL SUSAN RAMM
"Very good workers, great team of people. Polite and pleasant people. I would recommend them to anyone."

www.easigrass.co.za

schools

Events

EVENTS

35,000 SQM of grass laid
in 52 hours

In 2012 Easigrass™ made history by being the first ever participant of the RHS Chelsea Flower Show to present a show garden containing artificial grass. In fact, Easigrass™ won a Gold medal.

Easigrass™ is the perfect product for any important event, ranging from garden parties and wedding marquees, to large-scale concerts and music festivals. It brightens up any indoor or outdoor space or event, & looks fantastic in any weather, any time of the year.

SHOWROOM DISPLAYS

Easigrass™ transforming some of South Africa's top retail outlets

A great deal of department stores have seen the true value of Easigrass™ being introduced into their display areas, transforming what were hard surfaces into friendly and inviting places for customers to view different products for sale.

MR PATRICK EVE

"It is a big success. I am very pleased indeed and the team you sent were very good, friendly and efficient. I am happy to act as a reference for future clients if you want one. Cheers."

www.easigrass.co.za

FRONT DISPLAY WINDOWS

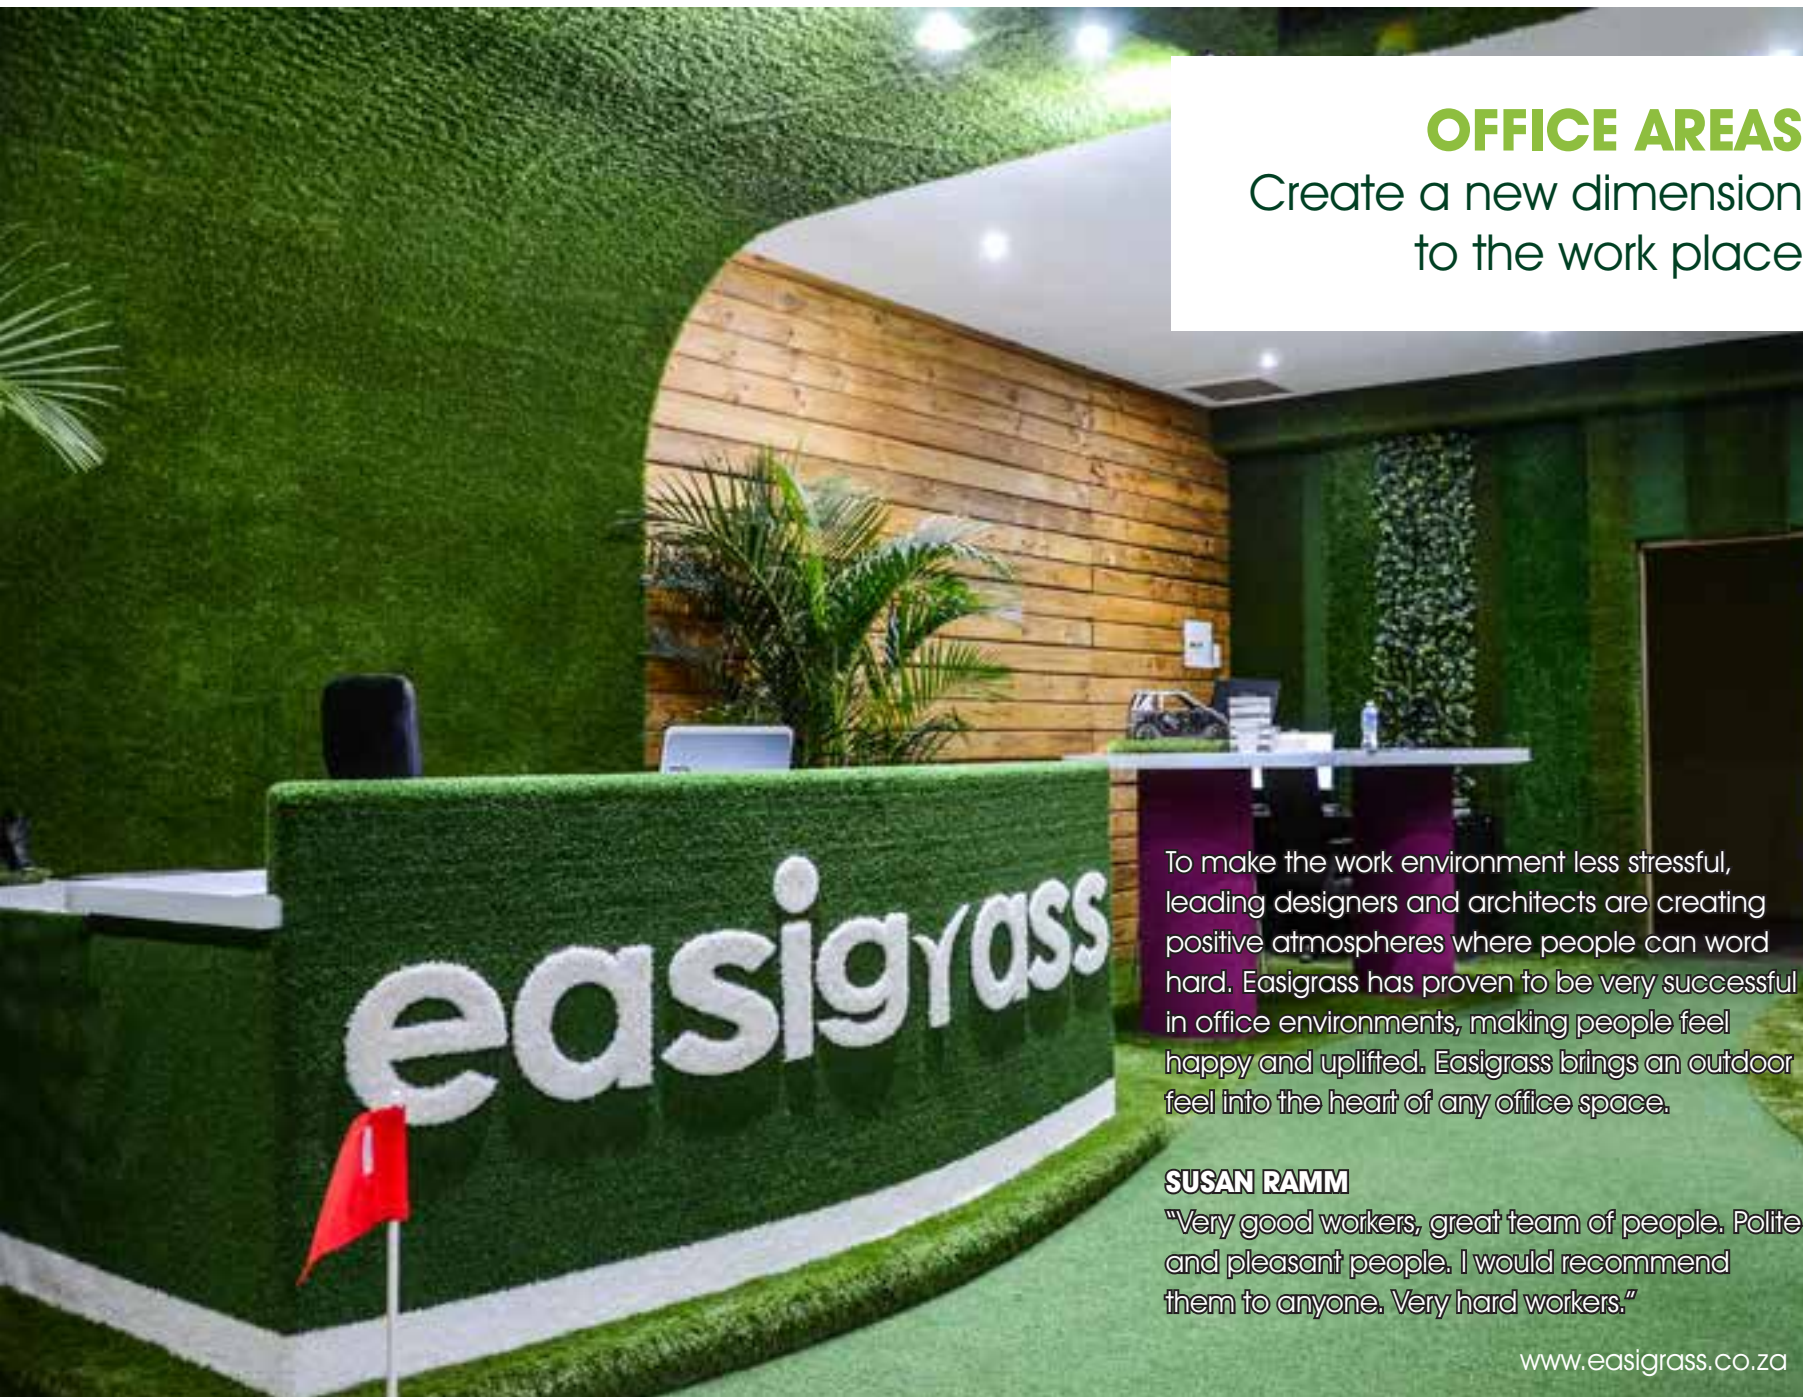

Easigrass™ Displays with a twist

A number of leading retailers have seen the true benefit of transforming their front window displays for the summer season with the introduction of Easigrass™. Top retail stores like Selfridges, Heals and Habitat used our premier product Mayfair to best show off their top of the range garden furniture and summer lines to great effect.

JAMES TOMKINSON

"I confirm that the installation of Easigrass™ artificial grass has been completed to our satisfaction and more than."

OFFICE AREAS

Create a new dimension
to the work place

To make the work environment less stressful, leading designers and architects are creating positive atmospheres where people can work hard. Easigrass has proven to be very successful in office environments, making people feel happy and uplifted. Easigrass brings an outdoor feel into the heart of any office space.

SUSAN RAMM

"Very good workers, great team of people. Polite and pleasant people. I would recommend them to anyone. Very hard workers."

www.easigrass.co.za

office Areas

HOTELS

Creating atmospheric areas

Hoteliers are seeing real advantages with the use of Easigrass™ within the structures of their hotels. Whether it be to create a fantastic new reception area on the likes of a roof terrace or to create small atmospheric intimate breakfast areas leading from a suite or room creating mini gardens and seating areas for all guests to enjoy. Large flat areas that are currently overlooked can easily be transformed into large green garden areas hiding the likes of unsightly air conditioning units and service areas.

MAUREEN MAGILL "Thank you, the men worked very fast & thoroughly even in the rain! "

RESTAURANTS

Easigrass™ ... adding a whole new quality to the dining experience

A growing number of restaurants and bars have opted for Easigrass to create a more intimate feel for their diners and customers. The attraction of lush, green grass that is easy to maintain, in an area that would normally be hard and unattractive is the main driving force in the growth of Easigrass within the leisure industry.

MRS BHATIA

"Very pleased with the end result & a special thanks to the guys who did the installation."

PAVING

the perfect alternative to standard tile and stone

Is a slippery surface keeping you from enjoying your pool? Sounds like someone needs some Easi-Paving! Our outdoor rubber tiles and pavers are the perfect alternative to standard tile and stone for outdoor decks, pools, patios, and playgrounds. So start enjoying your new patio, deck, pool, or playground with our outdoor rubber pavers.

Pour-in-Place rubber surfacing is suitable for a wide variety of applications including pathways, playgrounds, pool surrounds, garden sheds, bakkie/truck load bins, stairs, and any other area that requires an attractive, impact absorbing, non-slip surface. It is porous, which makes it suitable for many landscaping uses such as around trees and gym equipment.

POUR IN PLACE

a versatile flooring solution with endless possibilities

RUBBER INFILL

increases safety
and stability

Easigrass' infill is used in our Easi Soccer to help the blades of grass stand up properly and to ensure drainage through the bottom of the grass. The rubber crumb also increases the safety and stability of the playing surface.

We love to have fun creating new things using our grass. Our first member, "Kiama" The Rhino, made her debut as a promotional icon, however, she caused such a stir that she soon became our most desirable garden accessory!

EASI-ZOO

"Must Have" accessory for
any outdoor space.

Winning

Show Gardens

WINNING

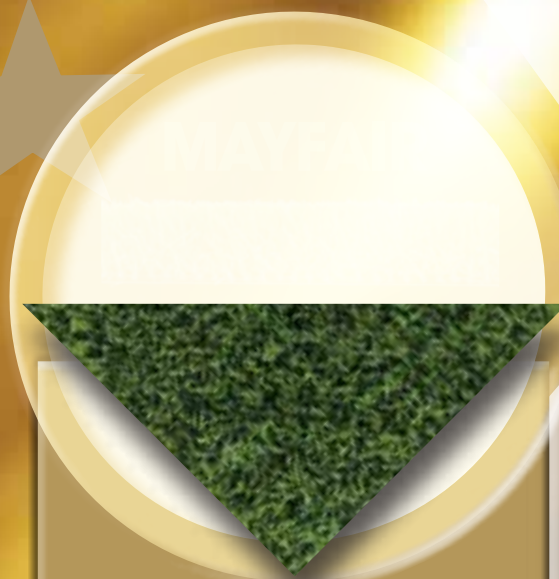

SHOW GARDENS

easylglass

The elite choice within our artificial grass range.

A Chelsea Flower Show medal winner, this unique, super soft feel product is the talk of the artificial grass industry, making it our most luxurious product. Having spent years on its development and achieving the highest of British standards, the Easi-Mayfair is of the finest quality on the market.

Its super-soft, lush feel combined with a dead grass infill makes this product extremely realistic looking.

CHELSEA

The Easi-Chelsea was named as Easigrass won a Gold medal at the Royal Horticultural Society (RHS) world famous Chelsea Flower Show.

Soft but durable, this product is amazing in gardens and hugely popular on balconies. With its new yarn technology and increased thatch and stitch rate, it is one of our premium products and our unique dead grass infill gives this product a very natural look and feel.

AWARD WINNERS

Easigrass™ hold only the highest quality grades of artificial grass and most products have their own applications.

If you are looking for an artificial grass that looks and feels like the real thing, Easigrass has a multiple medal-winning product range.

Bestowed with the honour of being the first ever artificial grass to receive a Royal Horticultural Society award, our range boasts the latest yarn technology to create authentic-looking, versatile and hard-wearing artificial grass.

We have a product for every application including gardens, balconies, schools and large commercial areas in order to create luxury lawns, rough and tumble rugby pitches, practical school playgrounds or quirky commercial spaces – both indoors and out - that can be enjoyed all year round.

Grass range

Quality comes as standard

EASI KENSINGTON

Following a recent breakthrough in yarn technology, we have developed this product for all garden and leisure areas.

This is also complete with our dead grass infill yarns to give that authentic look. This product provides a mud and mess free environment for lively children to play on year-round, as well as giving mums and dads more time to relax in summer without having to weed and cut this superb product.

EASI KNIGHTSBRIDGE

This is one of our longest standing, tried and tested product and has been in our range for over 8 years.

We have recently, due to popular demand, improved on its design by giving it a far more luxurious look and feel. Increased thatch height of 20mm and dead grass infill, ensures a luxurious feel and realistic look. Enjoy a premium product at a price you can afford. Fantastic value and durable.

This is our strongest and most durable grass in our collection, that has been developed for all sporting applications.

This product is used mainly for multi-purpose sports fields where a variety of sports can be played on. It will outperform any of the standard domestic grasses offered by others in the industry. We call it the "tuff one".

- Super Strong and Durable
- This product requires very little maintenance
- Perfect for High Football areas, Playschools and sporting applications
- 3.9 width with 10cm white line
- Product warranty of 8 years.

PLAY GRASS

Create safe & clean play areas

No more mud trailing through your school

Saves time and maintenance costs

- Independently tested Artificial Grass play system
- Tested in accordance to EN:1177:2008
- Can achieve up to 2.6 metres Critical Fall Height
- Can be used 365 days a year
- Lifespan of 10+ years
- Prevents injury
- Fully porous and UV stabilised
- Can be laid onto tarmac, soil, decking or concrete

www.easigrass.co.za

Grass range

Helps Reduce Water Bills

EASI SOCCER

This is our soccer grass. Mainly used for full sized and 5 aside soccer fields, this grass turns any field into a low maintenance, hardwearing, waterless option.

It requires rubber crumb and sand infill which will give you a realistic real grass feel under your soccer boots. It comes with white lines which are cut into the field. This grass is also a great solution for large play areas.

EASI SPORT

This grass is what is referred to as "Astro".

Simulating the look and feel of a perfect green, this product allows customers to have fun by adding a hockey, tennis or golf putting area incorporated into their EasiGrass garden or office, which can be great fun for family, friends or colleagues and clients.

EASI TURF

Easi-Turf 38mm pile artificial grass has been introduced for areas which just require an affordable grass solution.

It has been designed with affordability in mind but still carrying all the realistic characteristics of garden grass. It is an ideal grass for events, patios and wall gardens.

No mud, mess, or mowing

EASI GREEN

Easi-Green has been designed for the green look. It's the ideal grass to green up a patio or balcony or just to use as an indoor carpet.

This grass is sold at all Easigrass retail outlets in 2m widths for DIY. We love this artificial grass because it is maintenance free and its texture gives the appearance of real grass and a comfortable feel underfoot. This affordable grass solution makes your patio looking fantastic and full of life all year round.

EASI COLOUR

Our easi-colour has a range of four different colours and comes in either 1m strips or 4m multicolour strips.

This grass is ideal for kids rooms or areas that just need to be brightened up, it is very popular with primary schools and crèches.

Easy to maintain, great for indoor and outdoor use and comes with a product warranty of 8 years.

Lets face it... wet and muddy gardens are a common sight in South Africa. Whilst global temperatures are rising, we're still having to contend with extreme weather patterns, making our garden maintenance more and more time consuming.

Fear not – Easigrass™ are here for you.

Environmental Benefits

As our summer temperatures rise and break records each year, so does the water restrictions in some areas where droughts can be a problem. Of course, having synthetic grass means that there is no need to water which can substantially reduce water usage and costs. Also, garden owners need to think about the fertilisers needed to keep a healthy lawn area looking so green and healthy. By choosing an alternative to natural grass, you can limit the pesticides that can be dangerous to kids and pets and also pollution caused from water carrying chemicals into the drains is minimised.

Perfect for pets

Dogs, cats and other pets love to play in the garden, but often end up making a mess of the lawn and bring mud back into the house. With artificial grass gardens, pets will love to stretch out and roll around in the luxury real grass feel. There's also a huge advantage when it comes to toilet time with staining and smells. Pets will happily 'do their business' on it and our artificial grass is permeable, allowing pet urine to drain through and faeces to be removed easily. The artificial grass fibres will remain completely undamaged, as all that is needed is a quick clean.

EASI-SAND

EASIGRASS™

EASI-SHOCKPAD

EASI-GRIT SAND

EASI-WEED BARRIER

SOIL SUB-BASE

Easigrass™ maintain the highest quality installation and materials making sure every installation is an exceptional standard.

MATERIALS USED

EASI-SAND (Specialist Silica Sand)

This special kiln dried sand goes on top of the Easigrass™ and is mechanically brushed deep into the pile keeping the surface correctly in position and stable during the hot summer months.

EASIGRASS™

The selected grass the customer has chosen subject to application i.e sports or gardens.

EASI-SHOCKPAD (optional)

Easi-shockpads go underneath the Easigrass™ and helps cushion the final surface. They are fully porous, recyclable and introduce a 1.3m critical fall height for the perfect safety surface at all times.

EASI-GRIT SAND

This specially quarried grit sand provides the ultimate engineered base which allows us to create the perfect levels ready for Easi-shockpad.

EASI-WEED BARRIER

This is a specially chosen geo-textile membrane which acts as the first weed barrier within the Easigrass™ system. Subject to ground conditions the Easi-Weed Barrier can be placed above or below the sand.

EASI-ALL WEATHER GLUE

This is a specially formulated and chosen two part adhesive that can be applied to our 30cm wide jointing tape, it can be used in all weather conditions so no hold ups with your jobs.

Resurfacing, Regeneration & Maintenance

easi-golf™

Whether you require a highly technical putting surface, suitable for course use; practice or course tees, walkways and even landing areas on driving ranges, there are a many reasons why synthetic turf is the best solution:

Our project managers and shapers are supported by a dedicated hands-on senior management team, who are committed to ensuring the success of your project, whatever the scope or the resources required.

Using just one contractor to carry out all the operations associated with building a golf course has significant advantages for the customer. It removes the requirement to manage the interface between multiple contractors, ensuring that the conflicts which inevitably arise when employing several contractors are avoided. This results in a project which runs smoothly and any on-site changes requested by the customer or golf course architect are more easily accommodated.

as close to natural

Improve your golf with an easigrass™ putting green

Putting greens have become incredibly popular amongst the golfing community. Investing in easigrass™ means you can have a putting green added to your normal or artificial lawn giving you the ability to practice your passion for golf at home as well as at your club!

From re-shaping
a bunker through
reconstructing a green
to building a new 18
hole golf course on
a greenfield site, our
expertise, experience
and depth of resources
is second to none.
